Fuji Health Science Announces Name Change To Fuji Chemical Industries USA, Inc.

BURLINGTON, NJ – Fuji Health Science, Inc. has announced that as of September 1, 2016, the name of the entity has become Fuji Chemical Industries USA, Inc. to align fully in identity and mission with its parent company, Fuji Chemical Industries Co., Ltd., a worldwide leader in pharmaceutical ingredients and biotechnology.

Charles DePrince, president of Fuji Health Science, Inc. said, “As we celebrate our 70th anniversary of Fuji Chemical Industries Co., Ltd., this name change allows us to present ourselves in alignment with the global Fuji Chemical Industries Group, a leader in pharmaceutical ingredients and spray dry technology with an exceptional track record of innovation and superior quality.” DePrince further noted, “The name change also enables us to expand on our basic business to begin aggressively marketing contract manufacturing services in addition to excipients.”

The company continues to operate customarily in its current structure. However, the e-mail addresses have changed to "@fujichemicalusa.com" and its homepage has become www.fujichemicalusa.com to reflect and strengthen its corporate identity.

About Fuji Chemical Industries, Co. Ltd.

Fuji Chemical Industries Co., Ltd. is engaged in the production and sale of pharmaceutical products/synthesis, the manufacture of pharmaceutical and bulk pharmaceutical products, and the production and sale of food additives. It offers contract manufacturing services that include API manufacturing; functional APIs, such as drug intermediates; and drug products manufacturing. The company also provides excipients and drug delivery systems.
